TITLE :ROLE OF TRADITIONAL AND ELECTRONIC E-RESOURCES IN HIGHER EDUCATION

ABSTRACT:The beginning of the twenty first century has witnessed a growing competition to deliver new digital information services to millions of users. The knowledge of the technologies of information and communication is especially important because it refers to an area of knowledge generated by men and that has been produced to make viable exchange forms and relations; they are fundamental support of the process of the current globalization that leads to the knowledge society. Although most of them emulate the traditional publishing while others are revolutionary in their design and approach. While the present trend to imitate and emulate the traditional models of scholarly communication may continue for some time, eventually the capabilities added by the new media would be used in more innovative ways.
